

RACHEL A. DIANA

Williams Hall 335
Department of Psychology
890 Drillfield Dr.
Virginia Polytechnic and State University
Blacksburg, VA 24060

Phone: (540) 231-1913
Fax: (540) 231-3652
rdiana@vt.edu

PROFESSIONAL EXPERIENCE:

- 2022-present Area Director, Cognitive Neuroscience & Biopsychology concentration, Dept. of Psychology PhD program, Virginia Polytechnic Institute and State University
- 2018-present Associate Professor, Dept. of Psychology, Virginia Polytechnic Institute and State University
- 2011-2018 Assistant Professor, Dept. of Psychology, Virginia Polytechnic Institute and State University
- 2006-2011 Post-doctoral Researcher, Center for Neuroscience and Dept. of Psychology, University of California, Davis
Advisors: Charan Ranganath & Andrew P. Yonelinas

EDUCATION:

- 2001-2006 Ph.D. in Psychology, Carnegie Mellon University
Advisor: Lynne M. Reder
Dissertation: The low frequency encoding disadvantage: Reconciling word frequency effects in memory by considering processing demands at encoding
- 2002 M.S. in Psychology, Carnegie Mellon University
- 1997-2001 B.S. in Psychology with Honors, *summa cum laude*, Presbyterian College
Advisor: Leslie L. Baylis

CURRENT RESEARCH SUPPORT:

- 2019-2024 NSF
Context resolution and variability: Identifying learning strategies to optimize hippocampal representations
PI: Rachel A. Diana
Total direct costs: \$375,207
- 2019-2021 National Institute of Child Health and Human Development, R21

Brain electrical activity during infant inhibitory control
MPIs: Martha Ann Bell & Rachel A. Diana
Total direct costs: \$275,000

PAST RESEARCH SUPPORT:

- 2009-2015 K99/R00 Pathway to Independence Award (NIMH)
The dynamics of item and context memory in the medial temporal lobe
PI: Rachel A. Diana
Total direct costs: \$740,009
- 2007-2009 National Research Service Award (NIMH)
- 2002-2005 National Science Foundation Graduate Research Fellowship

CONFERENCE AND INVITED TALKS:

- University of Virginia, Psychology Dept., Cognitive Lunch, October 2023, Charlottesville, VA
How Does Episodic Context Contribute to Learning?
- University of Wisconsin, Milwaukee, Psychology Dept., January 2020, Milwaukee, WI
How does episodic context contribute to learning?
- Lawrence University, Neuroscience Program, November 2019, Appleton, WI
Leveraging episodic memory principles to support learning
- Memory Disorders Research Society Meeting, October 2019, New York, NY
Variation in encoding contexts increases item memory
Co-author: Jefferson Salan
- Adaptive Brain & Behavior Destination Area workshop keynote, Virginia Tech, April 2018, *Unitizing Episodic Memory: From cognition to brain and back*
- Memory Disorders Research Society Meeting, September 2017, Chicago, IL
ERP correlates differentiating unitization and relational processing during encoding
Co-author: Hsiao-Wei Tu
- Memory Disorders Research Society Meeting, September 2016, Princeton, NJ
Relating theories of contextual memory to PTSD
Symposium organizer: PTSD as it informs memory research and vice-versa
- Context and Episodic Memory Symposium, May 2016, Philadelphia, PA
Temporal context processing within hippocampal subfields
Co-author: Fang Wang
- Society for Neuroscience, 45th Annual Meeting, October 2015, Chicago, IL
Temporal context processing within hippocampal subfields

Co-authors: Fang Wang, Kyle Woisard

Southeastern Psychological Association, 61st Annual Meeting, March 2015, Hilton Head, SC
Junior Keynote, Southeastern Workers in Memory symposium
The encoding and retrieval of context in episodic memory

Psychonomic Society, 53rd Annual Meeting, November 2012, Minneapolis, MN
Medial temporal lobe activation during cognitive context reinstatement
Co-authors: Andrew P. Yonelinas, Charan Ranganath

Memory Disorders Research Society Meeting, September 2012, Davis, CA
PHc activation during context reinstatement predicts recollection
Co-authors: Andrew P. Yonelinas, Charan Ranganath

Context and Episodic Memory Symposium, May 2012, Philadelphia, PA
Discussant commentary on Dr. David Donaldson's talk

University of Maryland, Department of Psychology, February 2011, College Park, MD

High resolution imaging in the medial temporal lobe: Using multi-voxel pattern analysis to examine the selectivity of subregions

UCD Imaging Research Center fMRI workshop, July 2007, Davis, CA

Multi-voxel pattern analysis

Bay Area Memory Meeting, August, 2006, Stanford, CA

The low frequency encoding disadvantage: Word frequency affects processing demands

CONFERENCE POSTER PRESENTATIONS:

Cognitive Neuroscience Society Annual Meeting, 2024

How Does Context Variability Interact with Encoding-Retrieval Match?

Erica S. Shafer & Rachel A. Diana

Dennis Dean Undergraduate Research and Creative Scholarship Conference, April 2023, Virginia Tech

Is a Basis in Semantic Knowledge Required for Unitization of Item and Context Features in Episodic Memory?

Marali E. Harikar, Melissa S. Kramer, Shloka Adapa, Rebecca M. Fregoso, Elsa Fry, Sarah Green, & Rachel A. Diana

Cognitive Neuroscience Society Annual Meeting, 2021, Virtual

Does Unitization of an Item and Context Feature Require a Meaningful Association?

Ye-Lim Lim & Rachel A. Diana

Context and Episodic Memory Symposium, April 2018, University of Pennsylvania

Context variability as an encoding strategy

Jefferson Salan & Rachel A. Diana

Psychonomic Society, 58th Annual Meeting, November 2017, Vancouver, Canada

Predicting context: Priming for decision contingencies facilitates self-control

Paul F. Hill & Rachel A. Diana

Cognitive Neuroscience Society, 24th Annual Meeting, March 2017, San Francisco, CA
Functional dissociation and specialization of dentate gyrus and CA3 hippocampal subfields during episodic future thinking

Paul F. Hill, Tobias Sweeney, Gabriel A. Devenyi, Mallar Chakravarty, & Rachel A. Diana

Psychonomic Society, 57th Annual Meeting, November 2016, Boston, MA
Common and unique neural mechanisms supporting temporal and social discounting

Paul F. Hill, Amber Koch, & Rachel A. Diana

Virginia Tech Undergraduate Research Symposium & Creative Scholarship Conference, February 2016, Blacksburg, VA

Common and distinct neural pathways support self-controlled and altruistic decision making

Amber M. Koch, Paul F. Hill, & Rachel A. Diana

Cognitive Neuroscience Society, 22nd Annual Meeting, March 2015, San Francisco, CA
Source Memory Failures: Comparing Source Misattribution to Context of False Memories

Megan O'Neill, Heather Lustig & Rachel A. Diana

Cognitive Neuroscience Society, 22nd Annual Meeting, March 2015, San Francisco, CA
A Dual-Task Investigation of the Component Processes Supporting Episodic Future Thinking

Paul F. Hill, Samantha T. Boothe, & Rachel A. Diana

Society for Neuroscience, 44th Annual Meeting, November 2014, Washington, D.C.
Dissociable neural correlates of unitization and relational association at encoding

Hsiao-Wei Tu, Vanessa Brayman, & Rachel A. Diana

Cognitive Neuroscience Society, 21st Annual Meeting, April 2014, Boston, MA
The interaction of unitization and relational encoding strategies on medial temporal lobe activation during retrieval

Hsiao-Wei Tu & Rachel A. Diana

Cognitive Neuroscience Society, 21st Annual Meeting, April 2014, Boston, MA
Future altruism: The effect of episodic future thought on interpersonal discounting

Paul F. Hill, Lauren Costello, & Rachel A. Diana

Cognitive Neuroscience Society, 21st Annual Meeting, April 2014, Boston, MA
Neural correlates of temporal context retrieval

Fang Wang & Rachel A. Diana

Society for Neuroscience, 43rd Annual Meeting, November 2013, San Diego, CA
Memory for nonspatial context in parahippocampal cortex

Rachel A. Diana, Roger Strong, & Ashley Fehr

Cognitive Neuroscience Society, 20th Annual Meeting, April 2013, San Francisco, CA
Distinct profiles of impaired associative memory and underlying cerebral networks in Alzheimer's disease

Bastin, C., Bahri, M. A., Collette, F., Genon, S., Simon, J., Guillaume, B., Diana, R.A., Yonelinas, A. P., & Salmon, E.

- Cognitive Neuroscience Society, 20th Annual Meeting, April 2013, San Francisco, CA
Unitization of multiple context details in episodic memory
Hsiao-Wei Tu & Rachel A. Diana
- Cognitive Neuroscience Society, 16th Annual Meeting, March 2009, San Francisco, CA
ERP correlates of source memory: Unitized source information increases familiarity-based retrieval
Rachel A. Diana, Wijnand Van den Boom, Andrew P. Yonelinas, & Charan Ranganath
- Psychonomic Society, 49th Annual Meeting, November 2008, Chicago, IL
Different roles for context in recall and recollection
Rachel A. Diana, Andrew P. Yonelinas, & Charan Ranganath
- Cognitive Neuroscience Society, 15th Annual Meeting, April 2008, San Francisco, CA
Medial temporal lobe activation during source memory retrieval: Effects of unitized vs. nonunitized encoding
Rachel A. Diana, Andrew P. Yonelinas, & Charan Ranganath
- Cognitive Neuroscience Society, 14th Annual Meeting, May 2007, New York, NY
Contributions of recollection and familiarity to source memory for intra-item and extra-item source information: Testing a hypothesis generated from imaging data.
Rachel A. Diana, Andrew P. Yonelinas, & Charan Ranganath
- Neuroimaging and Psychological Theories of Memory, August 2006, Marburg, Germany
Identifying the ERP correlate of a recognition memory search attempt
Rachel A. Diana, Kaia Vilberg, & Lynne M. Reder
- Psychonomic Society, 46th Annual Meeting, November 2005, Toronto, Canada
Manipulating word frequency effects by varying processing demands: Low frequency words are more difficult to encode
Rachel A. Diana & Lynne M. Reder
- Cognitive Neuroscience Society, 12th Annual Meeting, April 2005, New York, NY
Identifying the ERP correlate of a recognition memory search attempt
Rachel A. Diana, Kaia Vilberg, & Lynne M. Reder
- Psychonomic Society, 45th Annual Meeting, November 2004, Minneapolis, MN
The Other Race Effect: How do processing time and distracting contexts influence recognition of faces?
Rachel A. Diana & Lynne M. Reder
- Psychonomic Society, 43rd Annual Meeting, November 2002, Kansas City, KS
The effects of irrelevant perceptual information on memory for faces
Rachel A. Diana & Lynne M. Reder
- Kent Forum on Visual Metacognition, June 2002, Kent, OH
The effects of irrelevant perceptual information on memory for faces
Rachel A. Diana & Lynne M. Reder
- Southeastern Psychological Association, 46th Annual Meeting, March 2000, New Orleans, LA
The effect of selection condition on group performance and leader evaluation

Rachel A. Diana & Leslie L. Baylis

HONORS AND AWARDS:

2017 Teacher of the Week, Center for Instructional Development and Educational Research, Virginia Tech
2015 President, Southeastern Workers in Memory, symposium at Southeastern Psychological Association meeting
2015 Certificate of Teaching Excellence, College of Science, Virginia Tech
2009 Pathway to Independence Award, NIMH
2008 Laird Cermak postdoctoral award, Memory Disorders Research Society
2007 Individual Kirschstein National Research Service Award, NIMH
2002 National Science Foundation Graduate Research Fellowship
2001 Department of Psychology Outstanding Senior, Presbyterian College

TEACHING EXPERIENCE:

Cognitive Psychology (graduate course) Spring 2012, 2013, 2014, 2015, 2016, 2017; Fall 2018
Cognitive Psychology (undergraduate course with lab) Fall 2017; Spring 2018, 2019
Nervous Systems and Behavior Fall 2011, 2013, 2015, 2016, 2017, 2018 Spring 2016
Nervous Systems and Behavior (asynchronous online) Summer 2017, 2018, 2019
