Importance of Getting Involved

Being involved is a great opportunity to gain more professional experience in psychology and to build community connections with other students and professionals. While learning in class is a crucial part of college, the experiences you choose to participate in outside of the classroom are equally important. It's a chance to learn more about yourself and your future interests, and actively build community with others.

GobblerFair, GobblerConnect & PSYC Social Media

GobblerFair is an opportunity to connect with over 170 student organizations. This is happening on **Friday, January 26th** from **4pm-6:30pm** in the **Commonwealth Ballroom** in Squires.

GobblerConnect is a great website to use to find organizations and events. There are over 700 student organizations and clubs on campus that you can join. You can search for specific areas of interest on the website and look at upcoming events.

Please follow us on social media! We are on **Instagram** under **@vtpsycadvising** [here](#) and on **Facebook** via the **Virginia Tech Psychology Major Advising** page [here](#).
